

Platformsify

Empowering entrepreneurs to launch Web3-ready platforms with zero code

Problem

Millions of aspiring entrepreneurs face barriers to launching modern digital platforms due to lack of coding skills, expensive developers, and complex infrastructure.

Solution

Platformsify is a no-code SaaS toolkit to build, launch, and monetize subscription-based, Web3-ready platforms — all from one dashboard.

Market Opportunity

The no-code industry is expected to exceed \$45B by 2027. Platformsify is positioned at the intersection of no-code, SaaS, and Web3.

Product

• Drag-and-drop platform builder • Subscription and membership engine • Integrated analytics and payment (Stripe) • Web3 integrations for ownership, identity

Traction

• 1,000+ early sign-ups • MVP launched • Active demos & onboarding sessions • Vercel + Supabase integration live

Business Model

Recurring monthly subscription (SaaS). Tiered pricing for individuals, startups, and enterprises. Optional add-ons for custom domains and white-labeling.

Go-To-Market

• Influencer & creator partnerships • SEO & content marketing • Affiliate program • Pre-launch waitlist

Team

Meheraj Uddin – Founder & CEO Background in SaaS, Web3 product architecture, and startup growth strategy.

The Ask

We are raising \$800,000 on a SAFE. Early investors get 5% equity at preferred terms. Projected revenue share: 45% for 3 years, equity optional.
