Platformsify

Next Generation Business Plan

Future-Ready • Commission-Based • Advanced Pro Platform Builder

Vision & Mission

Platformsify aims to revolutionize how users create, manage, and monetize digital platforms—by providing a 100% free-to-use platform builder backed by a commission-based revenue model.

Revenue Model

Users can launch and use Platformsify completely free. Revenue is generated by a small commission on transactions processed via integrated payment gateways (e.g., Stripe).

Core Features (Advanced Pro)

- Seamless Stripe integration (payment processing & webhooks)
- Supabase-powered backend (orders, sessions, RLS enabled)
- Resend for transactional emails (confirmation, admin alerts)
- Advanced page builder with ready-to-launch templates
- Production-ready deployment via Vercel
- GitHub CI/CD support for automation and collaboration
- Scalable database with Row-Level Security (RLS)
- Realtime updates and email automation
- Future AI integrations for personalized platform recommendations
- Upcoming analytics dashboard and performance metrics

Technology Stack

• Frontend: Next.js 15.5+ • Backend: API Routes + Supabase • Payments: Stripe • Email: Resend • Hosting: Vercel • Database: PostgreSQL (Supabase)

Market Strategy

Focus on creators, solopreneurs, and small businesses that need simple yet powerful tools to launch fast. Use freemium acquisition model supported by viral share, open-source transparency, and fast iteration cycles.
