

Platformsify Investor Profit Share Plan

This document outlines the investor terms and profit-sharing model for Platformsify's next phase of growth.

■ Early Investor Offer:

- First 5% of shares are available at a discounted entry point.
- Early participants benefit from maximum growth upside.

■ Investment Model:

- Investors fund Platformsify for a fixed 3-year term.
- Instead of equity, they receive 45% of total profits, pro-rated based on their contribution.

■ Share Structure:

- Company retains 100% ownership control.
- Investors can purchase any % of profit-share (up to 45%).
- 1% of profit share is priced at \$4.5 million (and rises as business grows).
- Early investors may enter at lower rates depending on timing and funding tier.

■ Growth Trajectory:

- Share pricing scales as Platformsify scales revenue and customers.
- This model ensures early investors benefit from long-term upside.

■ Use of Funds:

- Platform development & features upgrade
- Market expansion
- Customer acquisition
- Strategic hires and operations
